

May 13, 1975

quite adequate and a quite desirable gift, I feel for the state of Nebraska. Now, it was stated that the SUN project should be handled by Federal and by Private funding. This Cavanaugh amendment would prevent private funding, the private gift of Pershing to be used and enforce the SUN project to pay rental facilities here in Lincoln, Nebraska. It is handicapping, it is tying the hands of the project where they can not take a gift when given and use it for the SUN project. I feel that this is what is happening. It is simply tying the hands of the SUB project where a private gift has been provided to provide facilities for the SUN project. I feel that it is extremely unfair and the implications of additional cost to the SUN project by renting buildings in Lincoln have not been discussed what-so-ever. We may be if we pass this amendment adding additional dollars to the SUN project on rentals here in Lincoln and instead of saving money we may be tying the hands and expanding funds from the future of the state to fund this SUN project in Lincoln, Nebraska. Thank you.

PRESIDENT: Senator F. Lewis.

SENATOR F. LEWIS: Mr. President, members of the Legislature, I rise for two purposes, one Senator Murphy was obviously was doing some other things when I was speaking before he interpreted my remarks as being an advocate for the SUN program. I have subsequently told him that I wasn't here as a defender of the program. But, I was here if the program was going to be instituted to see that it was truly a state wide program. I am not interested in people from Scottsbluff at the conclusion of their program to travel to Lincoln for the 4, 5, day follow-up, or conversely from Norfolk or anywhere else, so I hope Senator Murphy that those comments are clear to you that I'm not here as the proponent of the SUN Program. Now, Senator Cavanaugh, I have a question for you. I think that he is outside. I think that he is outside most of the time anyway. What I propose to do now Mr. Chairman is I have an amendment and the amendment would be very simply this, following the Cavanaugh amendment it would simply say that "Nothing in the above provision shall establishment of centers for carrying out the functions of the SUN program". I'll bring that forward. Well I'll hold mine until we dispose of the Cavanaugh one. I does he have an amendment to the amendment pending?

PRESIDENT: No, it was just a change of a couple of words and that is.....

SENATOR F. LEWIS: Let me ask you about this amendment Senator Cavanaugh. I thought that maybe that I would just add this since your intent is to see that the program is carried out but you wanted it headquartered in Lincoln, for which I don't understand, but I'll let that ride. The amendment to the amendment would simply say that nothing in the above provision shall limit the establishment of centers for carrying out the purpose of the SUN program.

SENATOR CAVANAUGH: You want me to argue your amendment or what?

SENATOR F. LEWIS: I just thought that this would clarify your objections and that we would do this in a friendly harmonious way.
